## **Friday 15 May 2020**

The Greyhound Welfare & Integrity Commission has confirmed that greyhound, Coniglio, was euthanased as a result of catastrophic injuries at the Gardens on Friday 15 May 2020.

The Commission's on-track veterinarian attended to the greyhound at the site of the accident and provided pain relief and a sedative. Shortly thereafter following further examination in the veterinary room, Coniglio was humanely euthanased on welfare grounds.

As with all serious racing incidents this event will be analysed by the Commission's Race Injury Review Panel to determine the cause of this accident.

The Commission extends our condolences to the connections of the greyhound and to those at the track who witnessed the accident and provided assistance.
