

The Commission has amended its Rehoming Policy so that it supports and underpins the industry's commitment to achieving world leading welfare standards

KEY CHANGES TO THE POLICY

Effect of surrendering greyhounds

The registration of a participant who surrenders a greyhound to a Controlling Body will be cancelled and the participant will not be eligible for registration for a period of five years.

Surrender means permanently relinquishing ownership of a greyhound to a Controlling Body. Planned transfer of a greyhound to GAP or another rehoming organisation does not constitute surrender - rehoming is encouraged!

Restrictions on rehoming

Participants must not, without the prior approval of the Commission, transfer a greyhound to an unregistered person who:

- resides at the same address as a participant
- OR
- resides at a registered kennel address.
