

Trial track injury record

The GWIC Trial Track Policy requires trial track proprietors to keep records of any injury sustained by a greyhound at the track, including the name of the greyhound (if named), the greyhound's microchip number and the name and registration number of the greyhound's owner and/or trainer.

Use this template to record any greyhound injuries that occur at your trial track.

Participant name	Participant ID number	Microchip number	Date	Injury - as much detail as possible

Track name: _____

Address: _____
