REPORT:

Following receipt of a certificate of analysis from the Racing Analytical Services Laboratory, the Commission conducted an investigation into the results of a post-race urine sample taken from the greyhound, 'Blocka's Buddy' ("**Greyhound**") at the Gardens meeting on 10 January 2020.

Further analysis of the sample was conducted by the Australian Racing Forensic Laboratory, confirming the presence of caffeine and its metabolites theophylline, paraxanthine and theobromine.

After considering the evidence, the Commission charged Mr Ivers with a breach of Rule 83(2)(a) of the Commission's Greyhound Racing Rules ("**Rules**") given that the post-race urine sample taken from the Greyhound confirmed the presence of the prohibited substances caffeine and its metabolites theophylline, paraxanthine and theobromine.

Mr Ivers admitted the charge at the earliest opportunity.

The disciplinary action was conducted in writing in accordance with the participant's election.
