Code of practice

Part 2: Nutrition and hydration

Unless directed otherwise by a veterinarian, greyhounds must be provided with raw meaty bones and/or chew toys to promote dental health.

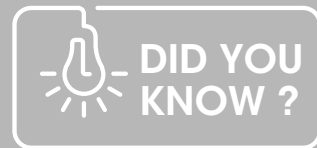

New categories will breed success

On 1 July the Commission introduced two types of breeder registration - Owner-Breeder and Breeder-Whelpers.

This move will:

- Reduce regulatory red tape
- Increase access to expert care
- Increase recognition for owners

Greyhounds Australasia (GA) has updated its policy for the approval of a Greyhound Passport for export. The updates provide clarification on destination country requirements (excluding NZ) for passport approval. You can find the policy on the GWIC website: bit.ly/43QiVBs

Give me 5 - a C5 reminder

Greyhounds must be vaccinated up to C5 level to be nominated for a race that will take place on, or after, 1 October 2023.

To be vaccinated up to C5 level requires either an annual C5 vaccination, or a C3 vaccination every three years and an annual kennel cough booster.

Visit www.gwic.nsw.gov.au and upload proof of vaccination via the eTrac Portal or send to registrations@gwic.nsw.gov.au by 1 September 2023 to allow time for processing.

From the Stewards' Box

Circular key - a reminder that successfully completing a straight track satisfactory trial DOES NOT clear your greyhound for circle tracks.

If a greyhound is ordered to undergo a satisfactory trial on a circle track, and successfully completes trial on a straight track instead, it will be cleared for **straight track racing only**.

If a greyhound incurs an endorsement on a circle track, it must undergo a trial on the circle prior to racing on that type of circuit.
