How to register your litter of pups

Are you a breeder and ready to get your litter registration off and racing? Here are the steps to follow on eTrac to make sure you're on the right track.

- 1 Complete a whelping notice and litter registration. Return it to GWIC within 14 days of the whelp/due date.
- 2 Submit record of C3 vaccination at 6-8 weeks.
- 3 Submit record of C5 vaccination at 10-16 weeks.
- 4 GWIC will arrange microchipping/ear tattooing of the litter between 12-16 weeks. GWIC completes a litter identification form.
- 5 GWIC registers the litter.

Litters can not be registered until those steps are completed. If you require any assistance contact us on 13 49 42 (13 GWIC).

A reminder to email us

A reminder that if you receive a fine from GWIC and opt to pay via direct deposit, you still need to advise us of:

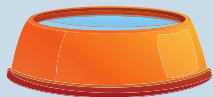

- | | | | |
|--|--------------------------|--|-------------------------|
| | Date you paid | | Amount you paid |
| | What the payment was for | | Location where you paid |

Please email those details to: accounts@gwic.com.au to avoid a default action. If you cannot pay your fine by the due date, contact us to let us know.

Help your dog chill out after racing

Given the warm summer weather, it is important to cool your greyhound down post-race. Here are some simple ways to help them chill out:

Provide greyhounds with water

Immerse your greyhound in a cool pool

Hose your greyhound's feet, chest, back and groin

Remove excess water with a towel

DID YOU KNOW? eTrac expands

Your one-stop shop digital portal, eTrac, now has even more information about your greyhounds.

You can now view:

- Weight history
- Placings
- Grade
- Status (runner or scratching)

Code of practice

Part 4: Greyhound breeding

Participants must obtain from a veterinarian a written certification that a greyhound is fit to breed before the greyhound may be registered to breed. A female greyhound must not have been caused or allowed to have more than two litters in any 18-month period.

From the Stewards' box

Betting to lose is an offence under NSW Greyhound Racing Rule LR166A. If a greyhound you train is in a race you must not:

- Place bets on another greyhound in that race
- Have a bet placed on your behalf on another greyhound
- Receive any benefit in any way connected with the laying of your greyhound
